

← Back to message Dr Anderson Correspondence... 1 / 2

Dear Dr. Canning,

The Internal Medicine CCC has asked me to meet with you to help facilitate a plan of remediation for your repeating PGY1 experience. The purpose is to help provide a remedial experience that results in your promotion to PGY2 at the end of the year.

I will also be working in consultation with the CCC to structure the learning experiences to be most effective and useful in achieving these goals.

Please contact the GME administrative assistant We Ziegler email above to schedule a time when we can meet.

Thank you,

Geoffrey Anderson, PhD
